

How to find and follow the BSG-18 set of 18 strategies.

Before following these instructions, you need to have already signed up on the Betaminic website and have access to the Betamin Builder online tool. Sign up here if you have not already: <http://www.betaminic.com/?ref=TomW> (Signing up is free, researching and viewing betting strategies in the Betamin Builder tool is free, it just costs money to receive future picks.)

How to find and follow the BSG-18

1. Go to the Betaminic “Public Strategies” page in the Betamin Builder.
2. Left-click on the “Search by name” option on the left menu.

3. Enter “bsg” in the search field.
4. The strategies with “bsg” in their name will appear in a dropdown menu on the left.

5. Left-click on each of the 18 strategies of the BSG-18. They all start “TOM WHITAKER BSG...” 01, 02, 03, etc.

- Left-click on the green "Follow" button on the right for each strategy so that they all have a tick on their upper-right hand side which indicates that you are following them.
- Please note that 2 of the BSG strategies have non-standard names because they have been updated:
 TOM WHITAKER BSG 4 Free Scoring Home Favourites (2021-4-30 updated) (This one is missing a zero in its numbering and was updated on April 30th)
 TOM WHITAKER BSG 09 Very Poor Home (Updated 2021-5-9) (This one was updated on May 9th)

Filter by: Results, Type of Strategy, Select Market Type, Search by Name. **Strategies I Follow**

Here you can display the results of the strategies with all historical data according to the conditions established in the strategy.

- In the My Picks -> Pending Picks area you will see the upcoming picks. If you do not see any picks here and you have Pending picks in your pick bank (top left – blue box), then it means there are no upcoming picks in the next 48 hours. If you have zero pending picks in your top right corner pick bank, then it means you need to buy more picks.

What is the BSG-18?

The Betaminic Public Strategies page has a list of many strategies created and shared by users. Strategies that show profit after they have been shared and show good performance rise to the top of the Betaminic rankings.

Big data betting works best when you spread your risk by following multiple strategies in a portfolio system. The aim being for the strategies to balance out each other's good and bad runs to make it smoother progress. The more strategies you follow, the faster turnover and the quicker you can reach your targets. Each strategy in the public area was created separately from each other, and because of this, some of the strategies overlap with their leagues and selections. This means that if you follow many strategies at the same time, you sometimes get the same pick twice from 2 different strategies or picks that back both the home and away team in the same match. Since you pay for tips on a pick-by-pick basis, this can be a waste of picks. For this reason, I took the top ranked and best performing strategies and edited them to fit together without overlapping and wasting picks. So each strategy in the BSG-18 is actually a customized version of an existing top-ranked, long-running strategy that is in profit.

- Simplified set of 18 strategies.
- Save pick costs - No duplicate bets.
- No away bets. Focus on over/under 2.5 goals, homes and draws.
- More bank protection with low individual strategy drawdowns and overall aggregated drawdown
- Core patterns of best strategies kept.
- Additional strategies edited to prevent overlaps and fill in gaps for most efficiency.
- Intuitive naming
- Full set ideal for autobetting

- Works well with add-on value home bet triggered auto-trading bot strategies
- Partial set easy to manage for manual betting
- Simple to use if you want to start gradually: recommended order to add them is by their number 1-18

Research Method for the BSG-18

I weighted and ranked the strategies to get my own top rated list.

Score	BSG	Strategy	User h	Follo	Bet Type	Rating	AP Max	LP Total	LP Yr	LP P	AP Avg	Di LP Av.	Picks/LP Av.	P/L	LP Avg	LP Max	AP Total	AP Av.	Picks/Mc	AP Av.	P/L/Mo	AP P &	AP Yield %	LP Yr	LP

32.02	45	Empate 2.0	neobal	11	Draw	5	-25.32	245	9.45%	23.2	3.39	9	1.8	3.33	-21.24	946	9	1.8	189.38	20.02%	0.095				

Then I made notes of the settings of every strategy in that list to find common settings, odds brackets and leagues.

I then found which combination of strategies enabled the best strategies to work together without overlapping.

For example, I keep the Colossus 06 Scoring Away Overs exactly the same, but add 2 leagues that another shared strategy with exactly the same settings had used and had success with. For leagues the Colossus 06 did not use, I edited other high ranked Over 2.5 goals strategies, but only used the leagues that fit into the gaps left by the Colossus 06. In this way I could build up a patchwork of strategies that could work together in the most efficient way.

BSG-18 Strategies Summary

The strategies are all on the Public strategies page now. If you type “BSG” into the “search by name” part of the page, you can find them easily.

It is much easier to see what you are betting on with this set. The Over/Under 2.5 goals market strategies are in blue. The Home bet strategies are in green. The Draw No Bet and Double Chance strategies are in light green. The Draw strategies are in purple.

TOM WHITAKER BSG 01 Scoring Away Overs V3	This strategy has the same settings as the Colossus 06 Scoring Away Overs but adds 2 more leagues that have good historical data.
TOM WHITAKER BSG 02 Goal Variance Overs	This strategy tries to ride the variance of teams scoring at home, if they didn't score last time, the over 2.5 odds get raised.
TOM WHITAKER BSG 03 Winning Away Unders	This strategy backs under 2.5 goals when there is a strong away team and more chance of a tight game with the home side defending.
TOM WHITAKER BSG 04 Free Scoring Home Favorites	This strategy backs strong home favourites who score many goals on average. Scoring teams have more chance to break through.
TOM WHITAKER BSG 05 Scoring Teams Home Favourites	This strategy backs home & away teams with good scoring averages. The away team goal average pushes the home odds up slightly.
TOM WHITAKER BSG 06 On Form Home Favourites	This strategy backs home teams that are in good recent form of 2 or more consecutive wins
TOM WHITAKER BSG 07 Home Dog	This strategy has the same settings as the Colossus 01 Home Dog. It produces few picks, but above average yields.
TOM WHITAKER BSG 08 Poor Home	This strategy backs home teams with poor form who have not won for 5 matches. This form pushes up the odds.
TOM WHITAKER BSG 09 Very Poor Home	This strategy backs home teams with very poor form who have not won at home in the last 8+ home games This pushes the odds up.
TOM WHITAKER BSG 10 Home Blanks	This strategy has the same settings as Colossus 14 Home Blanks Away Scoring but reduces the league selection to avoid overlap.
TOM WHITAKER BSG 11 Home Chance	This strategy backs home teams with decent home form vs

	away teams who are capable but not too strong or weak for better odds
TOM WHITAKER BSG 12 Winning Home DNB	This strategy backs home teams with a good win average vs similar opposition as a DNB bet. for insurance.
TOM WHITAKER BSG 13 Tough Home DNB	This strategy backs handpicked teams who often spring a surprise at home against better opposition as a DNB bet for insurance.
TOM WHITAKER BSG 14 Two Dogs DC12	This strategy backs 2 teams in poor form. Both teams view this a "6-pointer" match and push for the win. A good LTD selection.
TOM WHITAKER BSG 15 Winless Home DC1X	This strategy backs the 1X bet for teams with a normal average win rate but are "due" a win to return to their trend line.
TOM WHITAKER BSG 16 Draw Due	This strategy backs 2 teams who have not had a draw in their last 3-6 games and are "due" a draw to return to the trend line.
TOM WHITAKER BSG 17 Winner Draw	This strategy backs 2 teams both in good form who may settle for a draw.
TOM WHITAKER BSG 18 Draw Season	This strategy backs 2 teams with average wins rates and would surprise nobody by drawing with each other.

What original public strategies are the BSG-18 strategies based on?

For those users who are familiar with the top-ranking Betaminic public strategies, here is a more detailed list of which original strategies were edited to fit into the BSG-18. Main strategies are added with no changes, and then other strategies of the same bet type are added around them to make a complete system.

Code	Original Strategy	Bet Type	Changes	New Name
BSG 1	Colossus 06 Scoring Away Overs	Over 2.5 goals	2 leagues added	TOM WHITAKER BSG 01 Scoring Away Overs V3
