1 NEW - Betaminic tipster account "BetaminicSys" made +229 points in last 3.5 months (OnTippingSports.com) It posts tips from 7 strategies we can follow in the Betamin Builder

A user in our group pointed out to me that Betaminic has a tipster account on www.tippingsports.com called [BetaminicSys](#). It has made +229 points since February 1st. On closer inspection, each tip was bet on with 2 points. So on 1 point level stakes that would be 114.5 points profit in 3.5 months on level stakes. TippingSports calculates profit using the Betfair closing odds. It says it is an actively managed set of strategies and the last changes to the set were made on February 1st. The monthly graph looks amazing with the results since their last change making the profit graph even steeper. This is all on simple level stakes with no fancy staking plans or add-on bots. The monthly results of +25 in Feb, +63 in Mar, +54 in Apr and +81 in May which is only partway through.

Points profit/loss over time

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
2023	-21.78	25.72	63.98	54.46	81.98							
2022								6.78	15.53	9.97	3.33	

These results are so much better than my results after all my efforts. I can only apologise to everyone following my bot systems. I feel very strongly that big data betting using large databases of historical football statistics and odds is the right way to go in betting, and I feel I do people a service by leading them to Betaminic and trying to explain and show complicated things in an easier to understand way, but I am still not proficient at making it work. Here Betaminic have clearly used the database in a much better way than I have. Even before their changes in February they were getting fairly consistent level stakes profits from September 2022. When I see this, I immediately want to find out which strategies they are using and copy those. So let's look closer at what they are doing.

[BetaminicSys](#) posts tips from 7 strategies we can follow in the Betamin Builder.

- 1 Winless Home v Undeclared Away Last 3 All 111 of 111 leagues (Based on Home King by AugustinVidic) [ADDED 2022-9-14]
- 2 Colossus 06 Scoring Away Overs [ADDED 2023-1-30]
- 3 Contend UD [ADDED 2023-1-30]
- 4 Home king [ADDED 2023-1-30]
- 5 Away weak favourite 41 of 111 leagues 4%+ yields [ADDED 2023-1-30]
- 6 e2 [ADDED 2023-1-30]
- 7 Fonger Over 2,5 – 1 [ADDED 2023-3-3]

(Data taken from their tipster profile page <https://www.tippingsports.com/en/profile/2869>)

The first thing that jumps out at me is that since last month I have been following all 7 of these strategies in their original form or as an edited form.

I am following 5 of them in their original versions:

3 Contend UD

4 Home king

5 Away weak favourite 41 of 111 leagues 4%+ yields

6 e2

7 Fonger Over 2,5 – 1

And I am following 2 of them in edited versions:

1 Winless Home v Undeclared Away Last 3 All 111 of 111 leagues (Based on Home King by AugustinVidic→ WHUA PI V2 (for HK version)

2 Colossus 06 Scoring Away Overs → Colossus 06 Away Scoring Overs - Positive Inclusion (2022-11-1) 10 of 111 leagues

But in May I have not seen a +45-point increase. I must be doing something wrong.

How does BetaminicSys get these results?

It bets 2 points of a 100-point bank on each pick.

It uses level staking.

It bets on Betfair closing odds. So it is the equivalent of betting 3-5 minutes before kick-off.

It ignores the Betaminic minimum recommended odds. I know this because the TippingSports site does not have the function to accept minimum recommended odds.

It only bets once on a selection if it is picked by 2 strategies.

It has to skip picks for Pinnacle markets that are unavailable on Betfair.

How does this compare to the Pinnacle closing odds results?

Following these 7 strategies on the Betamin Builder or TippingSports ends up with about the same results, with TippingSports having +15 points more.
In terms of costs, following directly through the Betamin Builder with the Premier pick package is the cheapest way to follow the 7 strategies.

I think the choice is between the EASIEST or the CHEAPEST way to bet manually or automated:

EASIEST manual betting way: Follow on TippingSports with the 12-month subscription. The BetaminicSys account is actively managed by Betaminic so you don’t need to worry about when to stop, change or add strategies to the set. Tips get sent by email from TippingSports or you can see them on the TippingSports site. Cost: 140 EUR per month.
EASIEST automated betting way: Follow on TippingSports with the 12-month subscription and the TippingSports automated betting on Betfair service 12-month subscription. No downloads, software or VPS needed. It is done on their server, so you do not need to have your PC on 24 hours a day. The BetaminicSys account is actively managed by Betaminic, so you don’t need to worry about when to stop, change or add strategies to the set and automated betting means everything is done for you. This is the ultimate “set-and-forget” betting system. Cost: 150 EUR per month.
CHEAPEST manual betting way: Follow through the Betamin Builder with the Premier pick package. Picks get sent by email or you can see them in your Betamin Builder account. Cost: 78-173 EUR per month depending on number of picks.
CHEAPEST automated betting way: Follow through the Betamin Builder with the Premier pick package and the Bf Bot Manager 12-month subscription. Cost: 88-183 EUR per month depending on number of picks.

In terms of costs, following directly through the Betamin Builder with the Premier pick package is the cheapest way to follow the 7 strategies, and that is what I am going to do.

I do notice that there might be some overlap between Funger and Colossus, or between Home King and Contend UD, but I am going to double bet on those picks.

2 NEW – Super Simple Automated betting method for “BetaminicSys” – No software, download, VPN or VPS needed, just a Betfair account. (On TippingSports.com + Betfair account)

The Bf Bot Manager can sometimes seem a bit complicated. It also needs a PC to be switched on and connected to the internet to place bets. Some people don’t have a PC they can leave running 24/7 to bet, and even if they do, their home internet connection might not be as reliable as they thought and missed bets occur. Some Bf Bot Manager users opt for a VPS to run their software on. I do that. But this adds another layer of complexity and cost to the betting system.

TippingSports was made and is run by the same company that made the Bf Bot Manager. That is why it is very east to have tips from TippingSports linked to the Bf Bot Manager. But TippingSports also has another simpler automation option, which is to leave the technical side of software and VPS stuff to them. They have an Automated Betting Service which can be done entirely through their website. You just signup (free), enter your Betfair account details, select your level stake size and click “follow” on the tipster you want to bet on. (The BetaminicSys account is private, so you need to email tom.hudson@betaminic.com to get approval to follow that one with a paid subscription.) TippingSports will place BSP (Betfair Start Price) bets on all BSP markets and for other markets it will place bets at the currently available price. All bets are placed a few minutes before start time. The minimum bet size is equal to the Betfair minimum bet size for your account currency regardless of the point value that you set. This automated bet placement functionality is executed by the TippingSports server, so there is no downloading/installing of any software and you do not need to keep your computer turned on all the time. You do not need VPS/VPN as all work is done by their fast UK based servers.

This is the absolute simplest way to enable automated betting.

How is it different to the Bf Bot Manager? Well, in the Bf Bot Manager you can control all aspects of the betting process, such as time to bet, staking plans, what price to ask for and so on. But in the TippingSports Automated Betting Service, you can only use level stakes and only choose the stake size for each 1-point bet. For example, if you select 10 GBP for the 1-point level stake size, then each BetaminicSys bet will be 20 GBP since their tips are set as 2 points on each tip.

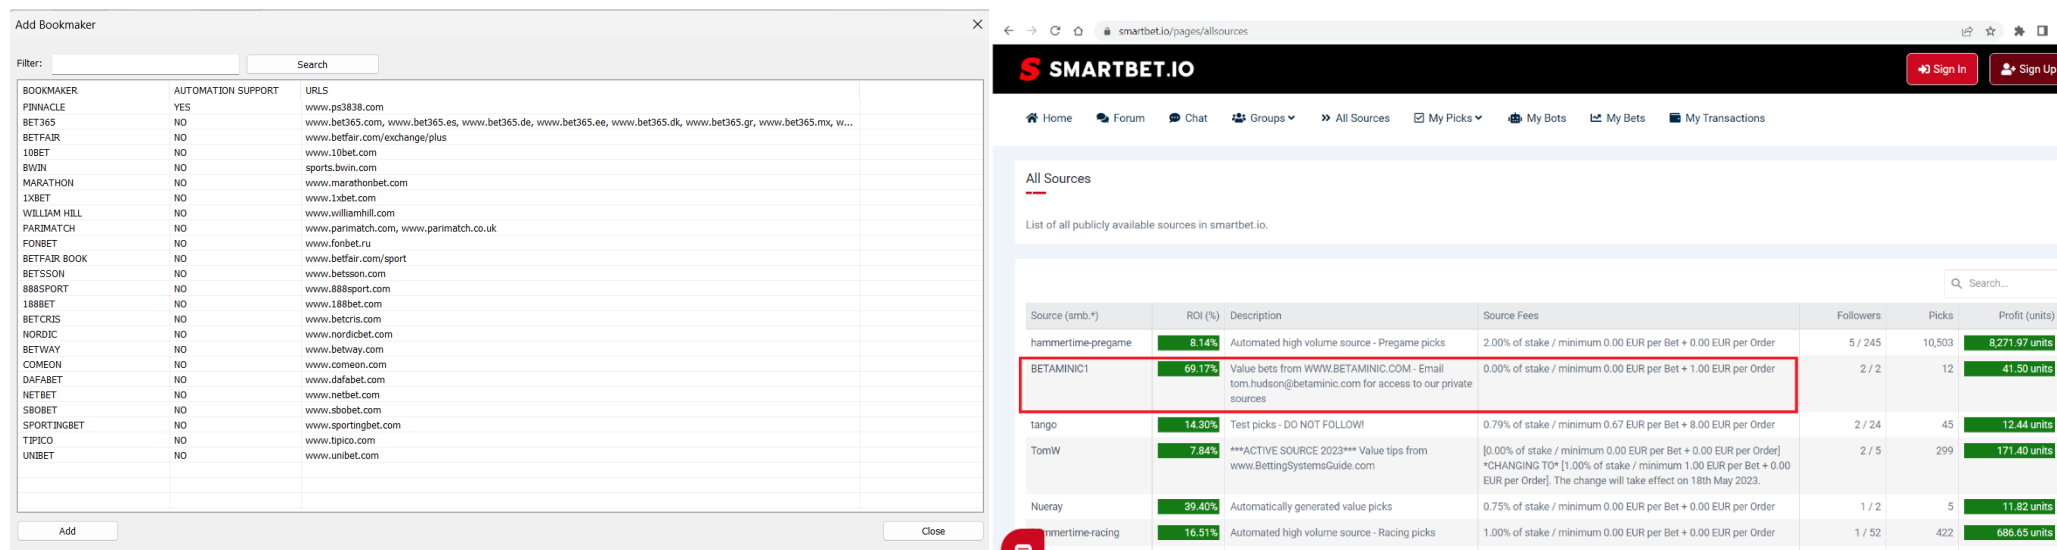

If you want to use this TippingSports service and have any questions, feel free to ask me bettingsystemsguide@gmail.com or contact the TippingSports support team <https://www.tippingsports.com/en/contact>

3 NEW – Automated betting on “BetamincSys” tips possible on Pinnacle markets via PS3838 (Using Smartbet.io software + PS3838 account)

The Bf Bot Manager and TippingSports enable automated betting on the Betfair Exchange only. But there are some users who have to pay the dreaded Premium Charge, or they cannot access Betfair Exchange, or they can but their country’s version of Betfair Exchange has fewer markets (Spain) or a higher commission (Australia 6%, Peru 6%, etc.) than the UK Betfair Exchange (2%) and thus becomes a poor choice for value betting. For this reason I am always on the lookout for other automated betting software. I found and have tested out Smartbet.io.

Smartbet.io is a website that has freely downloadable software that currently enables automated betting on PS3838, a white-label version of Pinnacle. PS3838 has Pinnacle markets and Pinnacle odds, just the name is different. It used to have automated betting on Bet365 and other bookmakers, but currently that is not available. They are working on trying to expand the number of bookmakers they can enable automated betting on. So in the future I am hoping it will have automated betting on Bet365, the real Pinnacle, William Hill, Unibet, Bwin and other famous bookmakers.

On Smartbet.io, tipsters accounts are called “Sources” that get sent to your bot if you follow them. Tips are “pay-as-you-receive”. So there are no big payments for pick packs or monthly subscriptions. Everything is pay-as-you-go.

One VERY unique and excellent feature from a follower point of view is that tipster results (source results) are only logged on the website IF a bot places a REAL bet on that bet. The odds recorded are the REAL odds that a bot placed its bet on at PS3838 and that your bot will also be able to get. Many tipster websites allow tipsters to post tips that even the tipster is not betting on, they just hope for a lucky run and to trick users into paying for their lucky run. But Smartbet.io tips are only logged if someone actually bets on the tip through the Smartbet.io software. So if you see a source with good results, they are REAL results that you can believe. It is the strictest tip verification I have ever seen. (For comparison, the TippingSports results are based on real Betfair closing odds, but it is possible that no-one, not even the tipster, actually bet on those tips. The odds are still 100% 3rd party verified by TippingSports with Betfair closing odds, so they are trustworthy and very meaningful for people who bet on Betfair Exchange. On Betingmetrics.com, tipsters could select the highest odds available at any of the bookmakers listed on the site, even minor sportsbooks that were relatively unknown and unlikely that people would use. On BetAdvisor (a now defunct tipping website) the tipster could enter their own odds into each tip, which meant results were often based on inflated, impossible odds that no follower could get. So proper tip verification is VERY important.)

Betaminc have just started up their own Smartbet.io source called “[BETAMINIC1](#)”. It says it posts tips from the same 7 strategies that the BetamincSys account is using. So that means it is possible to follow the BetamincSys tips on Smartbet.io with 100% automation on a pay-as-you-go style.

The way costs are calculated using Smartbet.io are quite unique and take a little time to understand because it is connected to your stake size. You can read their detailed explanations [here](https://smartbet.io/pagefeessmartbetio/feessmartbetio).

<https://smartbet.io/pagefeessmartbetio/feessmartbetio>
<https://smartbet.io/forums/topic/30/what-is-the-smartbet-io-fee-structure>

My super simple explanation is this:

In the case of Smartbet.io, pick costs and software fees are paid per pick through the Smartbet.io website.

A fee is paid to the website for use of their software for each pick received. This fee is proportional to your stake size.

A fee is paid to the website and passed on to the source (the tipster) for each pick received. This fee is either a fixed pick fee or proportional to your stake. It depends on the source (tipster).

The [BETAMINIC1 source fees](#) are displayed like this:

0.00% of stake / minimum 0.00 EUR per Bet + 1.00 EUR per Order

This means that you pay 1 EUR to Betaminc each time you receive a pick from them in the Smartbet.io system.

The SMARTBET.IO fees are displayed on the [fees page](#) like this:

Bookmaker	Standard Order Execution Fees (EUR)	(2.) Direct Order Execution Fees (EUR)	Order Retrieval Fees (EUR)
PINNACLE	0.50% of stake / minimum 0.00 EUR per Bet	0.10% of stake / minimum 0.00 EUR per Bet	0.01 EUR per Order
UNLISTED BOOKS	No Automation	No Automation	0.01 EUR per Order

This means you pay 0.5% of your stake + 0.01 EUR to Smartbet.io each time you place a bet.

Automated bets are “Standard Orders”. Direct orders are bets you place manually yourself through the system.

So
The Cost = 1 EUR per pick to Betaminic + 0.01 EUR + 0.5% of stake as fee to Smartbet.io

Example 1: a 10 EUR bet on a Betaminic pick costs 1.06 EUR
0.01 EUR (fixed fee) + 0.05 EUR (variable fee) = 0.06 EUR per bet to Smartbet.io
1 EUR (fixed fee) to Betaminic (deducted from Smartbet.io balance)

Example 2: a 100 EUR bet on a Betaminic pick costs 1.51 EUR
0.01 EUR (fixed fee) + 0. 5 EUR (variable fee) = 0.51 EUR per bet to Smartbet.io
1 EUR (fixed fee) to Betaminic (deducted from Smartbet.io balance)

Example 3: a 1000 EUR bet on a Betaminic pick costs 6.01 EUR
0.01 EUR (fixed fee) + 5 EUR (variable fee) = 5.01 EUR per bet to Smartbet.io
1 EUR (fixed fee) to Betaminic (deducted from Smartbet.io balance)

This could work out as being cheaper, similar or more expensive than following through Betamin Builder or TippingSports depending on your stake size and what pick package/subscription period you are comparing with.

For example, if you bet 100 EUR each time on the 862 picks from the 3.5 month period we have been analysing from the BetaminicSys set of strategies, then it would have cost 1.51 EUR x 862 picks = 1,301.62 EUR in fees
with a profit of 100 EUR stake x 102.89 points (based on Pinnacle closing odds which should be the same as PS3838) = 10,289 EUR
10,289 EUR profit – 1,301.62 fees = 8,987.38 NET profit after fees

How does that compare?

1 point = 100 EUR	Profit	Pick Costs / Automation Fees	NET profit	Large Stakes Betting
Manual Pinnacle betting	€10,289 profit	€-504	€9,785	Cheapest non-Betfair manual betting
Manual Betfair betting	€11,749 profit	€-504	€11,245	Cheapest Betfair manual betting
Automated Bf Bot Manager	€11,749 profit	€-544	€11,205	Cheapest Betfair automation
Automated TippingSports	€11,749 profit	€-580	€11,169	
Automated Smartbet.io	€10,289 profit	€– 1,301.62	€8,987.38	Cheapest non-Betfair automation

In the above case I use the cost if you can pay for the biggest pick pack or the longest subscriptions. The Bf Bot Manager and TippingSports seem to come out most reasonable automation choices. So Smartbet.io is the only really necessary if you can’t use Betfair.

But what if you don’t want to buy the biggest pick pack or the longest subscriptions? What if you want to test your feet and pay-as-you-go with the smallest pick packs or on the shortest possible subscriptions? What if you don’t want to risk 100s of euros? Then Smartbet.io looks much better.

1 point = 20 EUR	Profit	Pick Costs / Automation Fees	NET profit	Small Stakes Betting
Manual Pinnacle betting	€2,057.80 profit	€-1,025.78	€1,032.02	Cheapest non-Betfair manual betting
Manual Betfair betting	€2,349.80 profit	€-1,025.78	€1,324.02	Cheapest Betfair manual betting
Automated Bf Bot Manager	€2,349.80 profit	€-1,145.74	€1,204.06	
Automated TippingSports	€2,349.80 profit	€-919.96	€1,429.84	Cheapest Betfair automation
Automated Smartbet.io	€2,057.80 profit	€-913,72	€1,144.08	Cheapest non-Betfair automation

So for users who don’t want to pay for big packs upfront or don’t want to use Betfair, then Smartbet.io looks a possible alternative.
It is also interesting that in this simulation TippingSports automation also seems to work out best for users who want to pay month-to-month for a short subscription.

One more big advantage is the PS3838 bookmaker has Pinnacle markets, so ALL Betaminic picks can be placed. Betfair sometimes does not have all the Betfair markets and picks can be missed.

Gain The Edge With Smartbet.io's Unique Features

Automated order execution, bet settlement and record keeping

Get our app, add your preferred pick sources, configure filters and options such as staking, and link up your bookmaker accounts. Bet orders will be executed instantly at the best available market prices, and the resultant bets will be settled and recorded securely in your smartbet.io account. Monitor your performance in real-time with smartbet.io's top-notch analytics.

Flexible options for submitting picks and setting pricing for pick sources

Manually submit picks or use our open APIs to automatically send picks through email or HTTP GET or POST methods. Utilize our in-built market scanners to create customizable arbitrage/value sources or connect with external providers such as websites, telegram, email, alert services, or custom-built applications. Set the pricing for your pick sources and retain 100% of your earnings.

Transparent pick verification and comprehensive source evaluation filters

We track actual market prices for submitted picks and only record them when at least one follower places the corresponding bet with the same or better odds. We use advanced filters, sorting methods and views, including ROI, profit/loss, number of picks, books used and market liquidity at pick submission time, to help you evaluate pick sources accurately and efficiently.

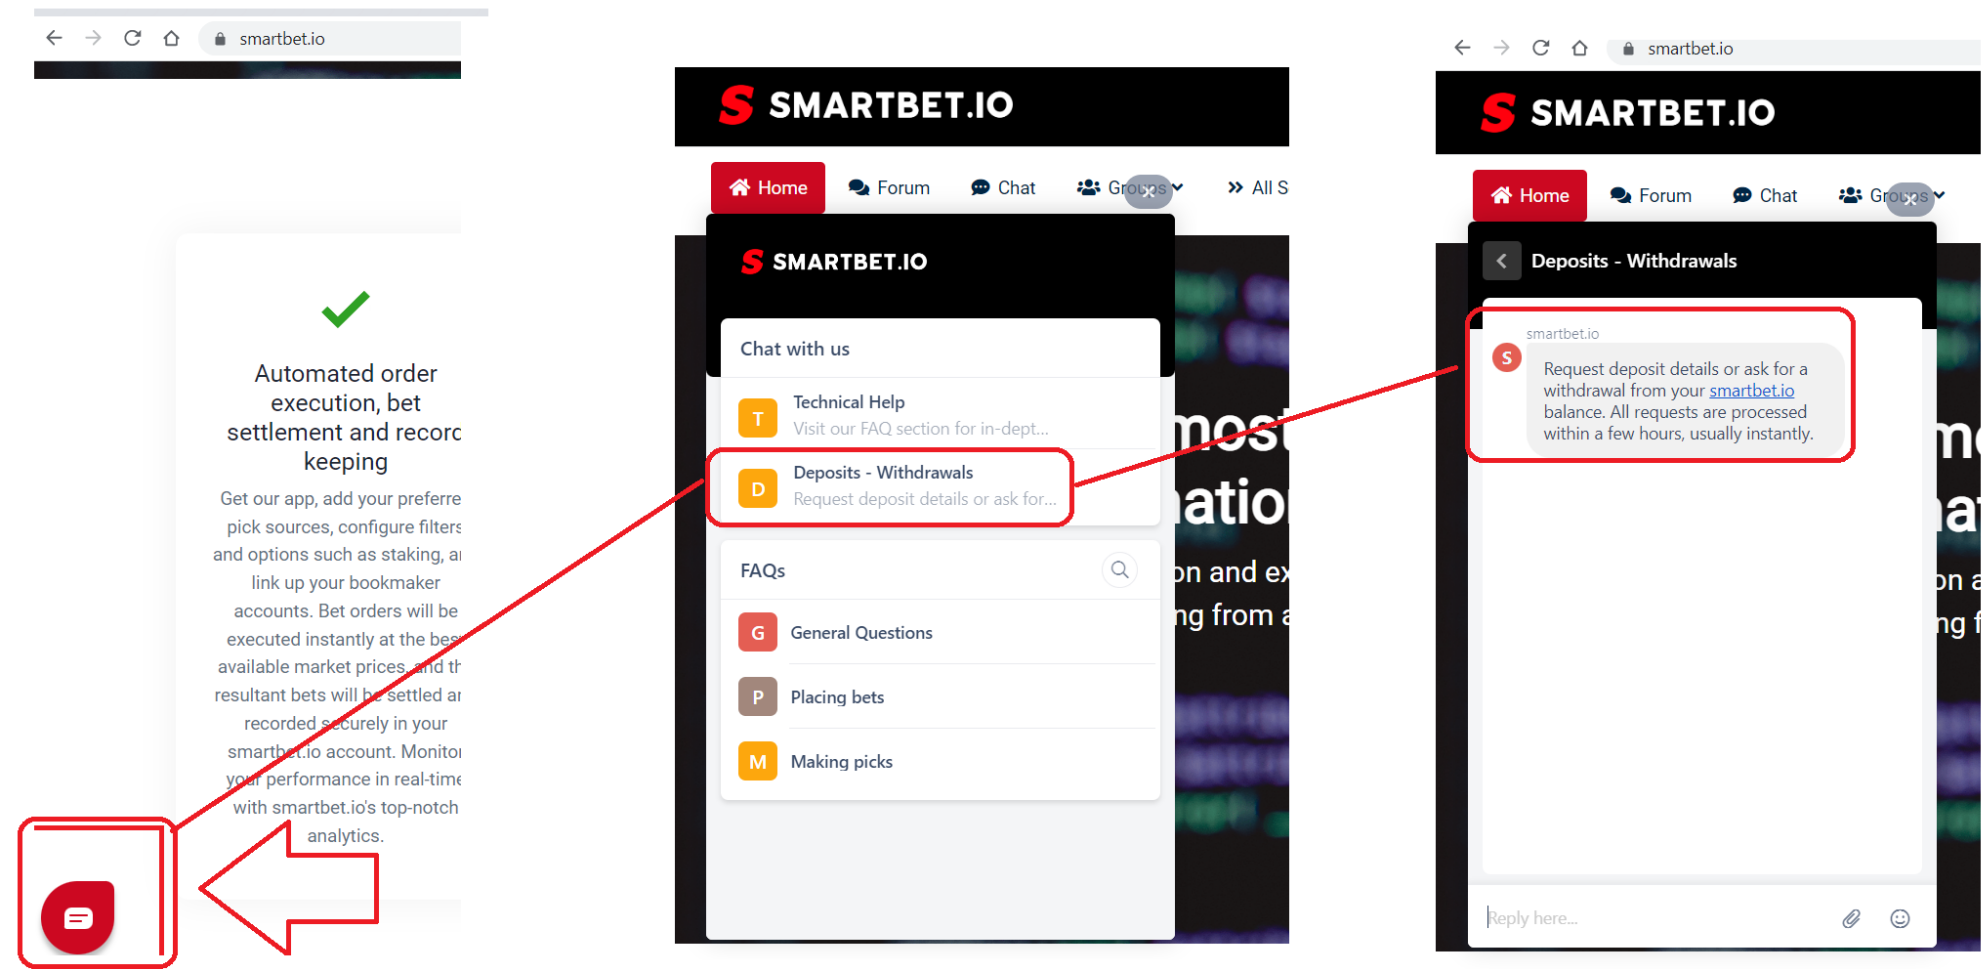

Advanced follower management options and extensive reporting options

Keep track of your followers' performance by using detailed reports that show information about the stakes and prices taken, ROI, profit/loss, and source fees earned. Manage the distribution of picks to protect odds in sensitive markets by setting maximum stakes and limiting access for specific followers. Personalize your service by offering personal discounts and more.

Paying fees

To pay fees on Smartbet.io, you need to make a payment to Smartbet.io themselves. I did it with PayPal, but I think they do have other deposit methods. You can do this by clicking on the chat function on the lower left of the Smartbet.io site screen, then clicking through to “Deposits – Withdrawals” and leaving a message that you want to deposit or withdraw money.

If you want to try Smartbet.io, you get a free 2 EUR starting balance when you signup. So you can test the software without paying anything or making any deposits.

If you do decide to try Smartbet.io, when you make your FIRST deposit, tell them **“I would like the TomW 50% deposit bonus.”** And they will give you a deposit bonus on your first deposit of up to 25 EUR. So a 50 EUR deposit will give you 25 EUR as a free bonus. In terms of Betaminic pick costs, that is a big discount for a small pick pack considering the 29.75 EUR pick pack has 0% discount on Betaminic. Note that this is only for the first deposit and the maximum is 25 EUR, so making a 50 EUR deposit is the best way to take maximum advantage of that offer and you get 75 EUR in your account for a 50 EUR deposit. Also, new users get 2 EUR in their Smartbet.io balance anyway, **so you would start with 77 EUR with a 50 EUR deposit if you say “I would like the TomW 50% deposit bonus.”** That is enough for 69 Betaminic automated picks through the software.

But you need a PS3838 account for the Smartbet.io software. PS3838 accounts can only be accessed through betting agents. I use BetInAsia and I can recommend AsianConnect for UK, Australia and other residents who cannot use BetInAsia. Between those two agents they cover almost all the world.

4 NEW – AsianConnect betting agent allows UK, AUS + many other countries residents to sign up and use their service which includes a PS3838 account, online sportsbook & exchange aggregator, and 3% commission white-label version of Betfair with no Premium Charge. (On AsianConnect + VPN*) (*VPN location should be Belgium, Poland or Romania)

I have introduced the betting agent [BetInAsia](#) before, but one problem was that they did not accept users from the UK or Australia. BetInAsia have a total of 30 restricted countries for people wanting to get PS3838 login details, which are needed to use the Smartbet.io software. Since then one of our group told me they use [AsianConnect](#) from the UK via a VPN with no problems. I got in contact with AsianConnect and asked them directly if users from the UK and Australia would pass the KYC stage (Know Your Customer) when trying to make a withdrawal, and they told me a firm yes. Here are the countries restricted by AsianConnect and BetInAsia. If your country is NOT on the list, you can use that betting agent. Basically, between the two betting agents, only 4 countries are restricted: Aruba, Philippines, Singapore and USA. So just choose the agent that will allow you to sign up and pass the KYC. I recommend ALL users to process and pass the KYC BEFORE you make a deposit or attempt to make a withdrawal. This is not because the agents will try to cheat you if you win a lot and try to withdrawal, it is simply because some people get into problems with having the requested documents to pass KYC. My problem was that my different KYC documents were from different countries and in different languages, so it took a little more time than usual to process my KYC clearance. If you are having trouble with KYC and wating for a withdrawal, it gets very stressful. So please complete all KYC as soon as you sign up.

It is fascinating how they seem to have divided the world up. Maybe they have a deal not to step on each other's turf. Except for Aruba, Philippines, Singapore and USA which neither of them will touch. I can understand the USA and Singapore, but why Aruba and The Philippines...? I will have to google that another time. AsianConnect seems open to more European countries, and likewise BetInAsia is open to more Asian countries.

Both betting agents offer the common Skrill, Neteller, Payz and Bitcoin methods. BetInAsia also offers direct bank transfers and MasterCard deposits in addition to those. (Note: EcoPayz has rebranded to Payz.)

5 NEW – TunnelBear offer a free VPN service that allows you to access AsianConnect if you are in the UK, AUS or any country that blocks direct connection.

I didn't like the idea of having to pay for another service to enable automated betting, but [TunnelBear](#) VPN offer a free VPN plan with no expiry date. Most "free" VPNs seem to have 1-4 week time limits to their free period, but TunnelBear VPN does not. It does have a monthly 2GB bandwidth limit for the free plan, but for just viewing the AsianConnect website that is enough. It also means you can try how the VPN works on your PC. To use TunnelBear VPN, you need to download their software. Then you can select which country you want the VPN to access the internet from. For AsianConnect they said to use Belgium, Poland or Romania. I chose to use Romania.

The software has an easy-to-use map of the world where you can select you VPN location. It also has a counter to show you how much bandwidth you have left this month. 2GB should be enough as long as you are not streaming video services.

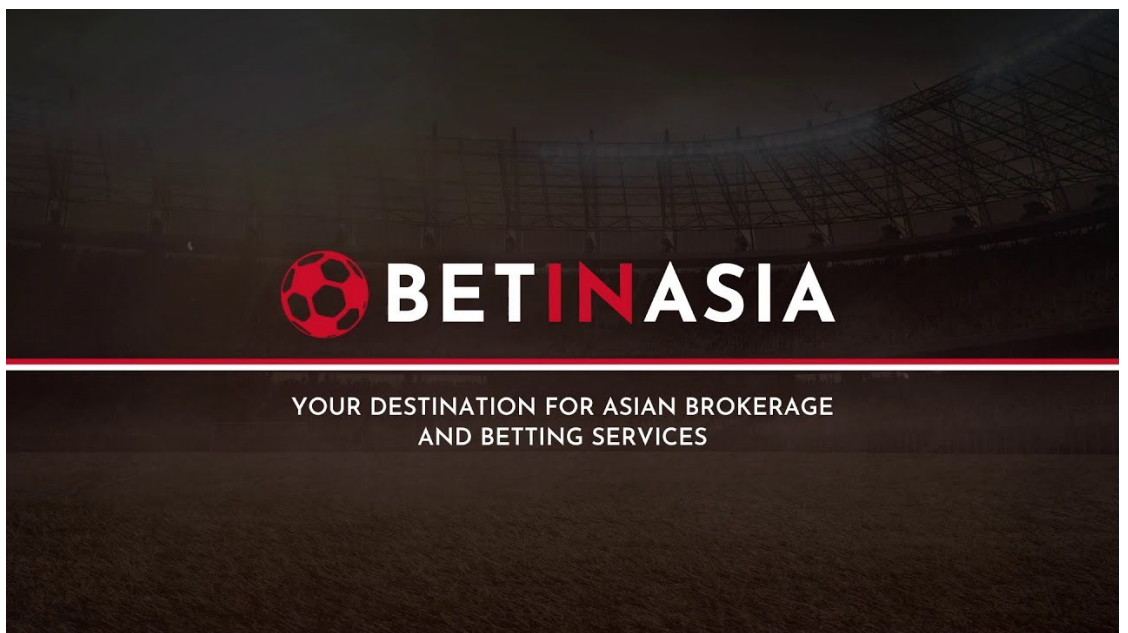

6 NEW – BetInAsia now offer a direct bank transfer option, no need for Ecopayz or extra payment service in the middle.

As mentioned before, [BetInAsia](#) have introduced a direct bank transfer option, so you no longer need to use an intermediary service like Payz (formerly EcoPayz). It says it is free, but you still need to pay your bank's transfer fees to send the money.

Only deposits in GBP/EUR are allowed.
The minimum deposit or withdrawal is 100 EUR/GBP.
You get one free withdrawal each 30-day period, but any extra withdrawals in that period cost 2% of the withdrawal amount.
There is no extra charge applied by BetInAsia on top of these fees, but your bank may charge you fees in line with their terms and conditions of bank transfer sending and receiving.

7 System Monthly Results July 2022 – May 2023 -16% overall this month and +0.01% in total in 11 months so I'm switching to BetaminicSys's 7 strategies.

Last month was a losing month with -16% off the nominal bank. As I said at the start of this newsletter, the BetaminicSys method has outperformed my method over the past 11 months, so I am going to switch to that system. For the sake of completion, I update my results here.

10 Current Betting System Setup Summary for manual and automated betting

I will start with a 1,000 GBP bank.

I will bet 2 points per bet, so that is 20 GBP level stakes per bet.

I will ignore the minimum odds.

I will ask for the currently available price.

I will bet on all picks, including duplicate picks. So if 2 strategies pick the same selection, I will bet twice on it. (This is similar to the Betamin Builder aggregator results.)

I will bet 5 minutes before kick-off.

I will pause other strategies and bots for the moment.

I will make a new bot set to place and track all these bets, but it can easily be done manually since it is 20 GBP level stakes.

(For automated betting, I need to use the renamed [Funger Overs BfBM](#) to avoid name format problems in the software.)
