

## 2023-4-18 Big Data Betting Newsletter – Results Update and Strategy Changes

Dear all,  
(This is a group mail to my Betaminic newsletter list and [www.BettingSystemsGuide.com](http://www.BettingSystemsGuide.com) newsletter list.)

### Super Short Summary of this newsletter:

1. **System Monthly Results July 2022 – April 2023** -11.19% overall this month and +16% in total in 10 months
2. **My Individual Strategy Results Update**
3. **System Changes**
4. **Current Betting System Setup Summary** for manual and automated betting
5. **Automated Betting Bots** – My full current Bf Bot Manager bot file sent as .gz

See the PDF for the newsletter.

Best Regards,  
Tom

1. System Monthly Results July 2022 – April 2023 -11.19% overall this month and +16% in total in 10 months

Last month was a losing month with -11.19% from the nominal bank. A lot of this was my Lay bot set finally having a losing month and also the Colossus 06 (Positive Inclusion version) with its add-on bots. Together the two of them accounted for over half of the system losses.

The Lay system was due a losing month after 4 consecutive months of profit, and it still has 7 out of the last 10 months ending in profit, so I am not worried about that strategy or its add-on bots.

The Colossus 06 PI add-on bots really compounded the losses and the Whitaker staking settings was placing larger bets on the lower odds which led to an even bigger loss.

All of this was made worse by my own personal betting choices when I lost most of my bank by backing Barcelona to beat Girona at home on April 11th.

I now have to effectively start again with a much-diminished bank of about 500 GBP.

The massive 97% win in April was followed by an expected fall for set 1, but it is still +51% after 2 months.

Set 2 also had a -21% drop after its strong +47% in March, but is still +16% after 2 months.

Date of Data	Set3 1 Win, Home king, Pro-Home - Positive Inclusion (2022-10-25) 18 of 111 leagues, Colossus 05 Against the Trend Overs AL (Updated 2020-07-04), Reverse streak of away team light version (Updated 2021-11-05), draw 15					Set4 TOM WHITAKER BSG 06 On Form Home Favourites, (HOME), Colossus 06 Scoring Away Overs, Reverse streak of away team light version, Empatazos

18/04/2023	£88.13	£536.14	152	£1,536.14	2.36%	£164.35	£284.19	124	£1,284.19	6.04%
------------	--------	---------	-----	-----------	-------	---------	---------	-----	-----------	-------

Set 3 did manage a small profit of 2% in April bringing it up to 53% after 2 months.

Set 4 also made a profit of +6% in April to reach +28% after 2 months.

So Set 3 is the winner of these 4 sets with +53%, narrowly beating Set 1 which had +51%.

Due to my smaller bank, I will not follow these 4 sets during the next month, and so this is the last update for them.

## 2 Individual Strategy Results

Date of Data	Draw Due All 111 leagues					LAY the negative trend Home				
	Total P/L Single Strategy	Total P/L Including Extra Bets	Total Betaminic Picks Used	Current Nominal Bank	% Monthly Change	Total P/L Single Strategy	Total P/L Including Extra Bets	Total Betaminic Picks Used	Current Nominal Bank	% Monthly Change

Winless had a good month, and its base strategy Home King did well, too with +12 and +15 points on level stakes in the last 2 months. Interestingly, the Betaminic stats for Winless are +7 and +7 in April and March on level stakes. This is one reason I am going to balance my Stingy Bookmaker style with level stakes to try and get a balance between both styles.

18/04/2023		£83.67	299		STOPPED		-£599.45	515		STOPPED

These are strategies I followed in the past, but I leave them here to include their P/L in the 10 month results.

### 3 System Changes

#### Strategies

I am going to add in 2 strategies based on one of our members showing me his results and how he has done better than me, getting +75 points in the last 3 months on 1 point level stakes! This was done by betting on all tips, ignoring the minimum odds, at Betfair odds close to kick-off (betting about 5 minutes before kick-off). Also, when 2 strategies gave overlapping, duplicate tips, he only bet once. He did not double bet on them.

His set was:

1. Winless Home v Undeclared Away Last 3 All 111 of 111 leagues (Based on Home King by AugustinVidic)
2. Colossus 06 Scoring Away Overs
3. Contend UD
4. Home king
5. Away weak favourite 41 of 111 leagues 4%+ yields
6. e2
7. Funger Over 2,5 – 1

I already have most of those, so I just need to add:

[e2](#)

and

[Home King](#)

Home King has a wider odds band of 2.40 – 5.00 compared to my current “Winless home...” which is also based on Home King but has a narrower odds band of 3.20-4.00. So I will duplicate and create a new version of “Winless home...” that cuts out the leagues that are already covered by the Home King original version. Then there should not be any overlapping and “Winless...” V2 will supplement the Home King bets. [WHUA PI V2 \(for HK version\)](#) is the name of this new version. I changed the odds band to match Home King and used Positive Inclusion league selection. So you can think of Home King as the original version and WHUA PI V2 as simply adding extra leagues with the same settings that have historical profit and yields of 4% or more.

### 4. Current Betting System Setup Summary

So my set will become the **Stingy Bookmaker Set of 11 Strategies**

1. [Under 2.5 Balrog](#)

2. **841 LAY the negative trend Home LGA** (Needs access to a betting exchange for lay bets.)
3. [Away weak favourite 41 of 111 leagues 4%+ yields](#)
4. [Contend UD](#)
5. [Funger Over 2,5 – 1](#)
6. [Pro-Home](#)
7. [Draw Due All 111 leagues](#)
8. [Colossus 06 Away Scoring Overs - Positive Inclusion \(2022-11-1\) 10 of 111 leagues](#)
9. [WHUA PI V2 \(for HK version\)](#)
10. [Home King](#)
11. [e2](#)

(About 280 picks per month on average.)

#### Aggressive Combination Staking

I will use a combination of level stakes and Whitaker staking for this. I am going for a quite aggressive attempt to build my bank quickly.

Each strategy will have

1: A Whitaker Staking bet that is linked to the Betfair account funds. (About a 500 GBP start point) It will use the Stingy Bookmaker method and place bets at the opposite odds. It will skip picks when the odds are under the recommended amount.

2: A 10 GBP level stakes bet on all picks, requesting 2 ticks lower to ensure the bet gets taken, and ignoring the minimum odds.

I recommend Whitaker LC3 Staking Settings or Level Stakes that match your risk level:

Whitaker Staking LC3	
Odds Bracket	Staking Settings
1.01-1.26	Bet 15% of bank
1.27-1.75	Bet to win 4% of bank
1.76-1.99	Bet to win 4.5% of bank
2.00-9.99	Bet to win 5% of bank
10+	Bet to win 6% of bank

#### 5. .gz – Bf Bot Manager bot file

This month I am attaching my current bot set, which is my exact bot set that I am using now.

You can view the bot settings I use and edit it to use it as you wish, or leave it as it is and just switch on the bots you want. Be sure to reset bots before you start. I exported them un-reset so that you can see their current results to help you make choices easier.

#### 2023-4-18 Stingy bookie set 11 strats x44 bots.gz

They are basically

A.1 bots bet on imported tips, skipping those under recommended odds, using stingy bookmaker method of asking for opposite price. Bank is Betfair account funds.

A.2 bots bet on imported tips, betting on those that were skipped by A.1 because they were under the minimum odds. Asking for current price, small 0.10 bet.

B.3 bots bet on all imported tips, ignoring min odds, by being triggered by both A.1 and A.2 bots. Asking for current price, 10 GBP level stakes.

T.4 bots are tracker bots to count how many picks were used. (Note, these don't count picks that don't have Betfair markets. (i.e markets that were on Pinnacle, but not on Betfair.)

These bots are set with aggressive staking plans. I provide them as an example of what can be done with the strategies and bots working together. But please only use bots that you understand. Please note that my stingy bookie bots skip many bets. They skip bets that are under the minimum recommended odds. They also let bets lapse if the requested prices are not matched. Unmatched bets will be cancelled at in-play. I share these bots as an example to help you get started, but it is important to learn how to use the software yourself. If you are not sure about the staking plans and extra bots, then just use level stakes that match your risk level. That is the simplest way to automate your betting. I also attach the new mixed bot sets and also a set of 4 level stakes strategies for first timers.

These bots are setup to try and increase my 500 GBP bank as fast as possible.

Best of luck!

Tom
