

Betaminic Draw System

A 100% Automated Betfair Betting System – The Betaminic Draw System from www.bettingsystemsguide.com

Aim: £3,000 bank trying to make £400 GBP per month.

+40 points per month average profit with my BFBM bot set (+14 points per month without)

300 point bank

-210 point drawdowns

Costs: 140 EUR (120 GBP) per month BetaminicDraw Subscription (Cheaper and simpler than following directly through Betaminic)

(Also needs a 10 GBP per month Bf Bot Manager Subscription)

The data suggests £410 average profit per month on £10 stakes with a £2,000 bank is possible.

There are 2 ways to follow the Betaminic Draw System.

The Betaminic Draw system can be followed with trigger tips from TippingSports or from the Betamin Builder.

First, I will explain the simple way (TippingSports), then the more complicated way (Betamin Builder).

Method 1: Get trigger tips from TippingSports

Pros:

It is cheaper to follow through TippingSports rather than the Betamin Builder over the long term.

You only need to follow one source, TippingSports. Getting tips through the Betamin Builder means you need to follow each individual strategy. At the moment, 10 strategies are used and one of them you need to duplicate and create yourself in your private strategies area.

You only need one bot set of 7 bots instead of 70 bots which the full Betamin Builder set would use. (10 draw strategies x 7 bots = 70 bots) But in theory, even with the Betamin Builder version, you could send all the picks to one bot set of 7 bots.

Cons:

You cannot include/exclude individual draw strategies yourself. I choose which draw strategies are used in the BetaminicDraw system.

You cannot see each strategy/bot set to view how each strategy's bots are performing individually. All tips are sent to one bot set.

System Requirements:

[Betfair account](#) (Free)

[TippingSports Account](#) (Free),

[Bf Bot Manager software subscription](#) (£10 per month)

[BetaminicDraw System Subscription](#) (£120 per month with 12-month subscription)

Optional:

[VPS subscription](#) (£20 per month)

[InPlayTrading data feed subscription](#) (£20 per month)

Setup costs:

£3,000 betting bank (aiming to make +£400 per month.)

£120 for 12-month BF Bot Manager Subscription

£1,440 for 12-month BetaminicDraw Subscription

£4,560 needed to start and run this for 12 months

Aiming to make +£4,800 profit - £1,560 costs = +£3,240 net profit over 12 months.

How to Follow

1. Get a www.Betfair.com account.
2. Get the [Bf Bot Manager automated betting software](#). (Free 7-day trial, £10 per month subscription)
3. Email me at bettingssystemsguide@gmail.com to ask for the "BetaminicDraw bot set for TippingSports".
4. Import the bot set to your BFBM. Edit the stake settings in my bots to match your chosen starting bank. (Default setting is 1 GBP stakes with a 300 GBP starting bank.) Setup Match Odds and Correct Score markets autoloading. Then, start the bots!
5. Get a www.tippingsports.com account (FREE to sign up, do not pay for their automated betting service, we are using BFBM). Connect your TippingSports account to your Bf Bot Manager (see the detailed instructions below, or the [TippingSports manual](#) p20.)
6. On TippingSports, click "Follow" on the TippingSports account "[BetaminicDraw](#)". These are the core strategy tips.
7. Pay the subscription fee for the subscription length you choose to Betaminic (not me) via PayPal to sales@betaminic.com. (If you want to pay by bank transfer in EUR or GBP, then ask tom.hudson@betaminic.com for details)

Discounts are available for longer subscriptions.

1 month subscription - 200 EUR per month

3 month subscription - 540 EUR (10% discount: 180 EUR per month)

6 month subscription - 960 EUR (20% discount: 160 EUR per month)

12 month subscription - 1,680 EUR (30% discount: 140 EUR per month) Lowest monthly cost.

8. Email tom.hudson@betaminic.com to tell him your TippingSports username so that he can approve your account to follow the tips. The next new tips should then appear in your BFBM Manage Tips form when they next get sent.

My recommended bot set

The bot set I will send you is this one "Set 039". It is setup for a £300 starting bank with £1 stakes.

Please adjust it to your starting bank level which is stake x 300.

2 Detailed Setup Guides

How to connect TippingSports to the Bf Bot Manager

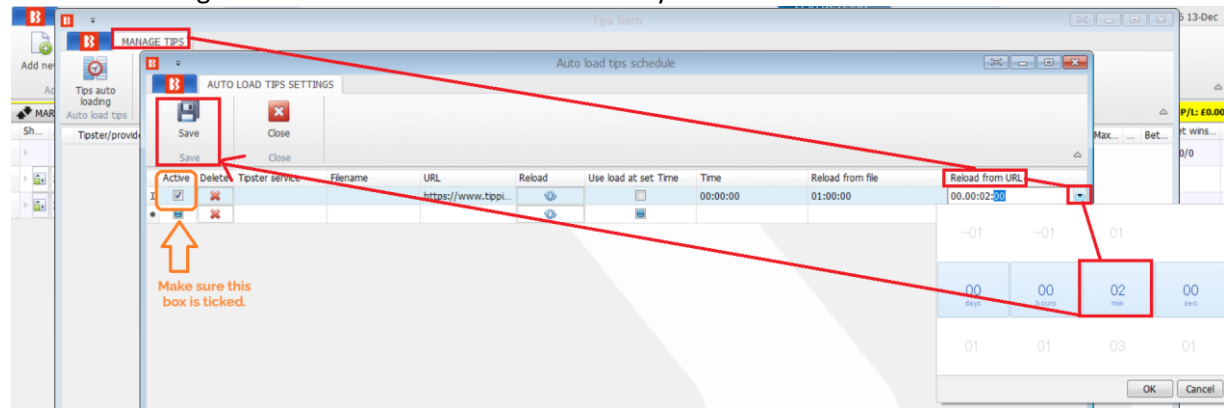

- 1 Sign up for TippingSports. (Free, you do not need to pay them anything, ever.)
- 2 Go to your account page.
Click on the “Automated betting” tab.
Copy the URL lower down on this page in the “Automated betting on tips by Bf Bot Manager V3” section.

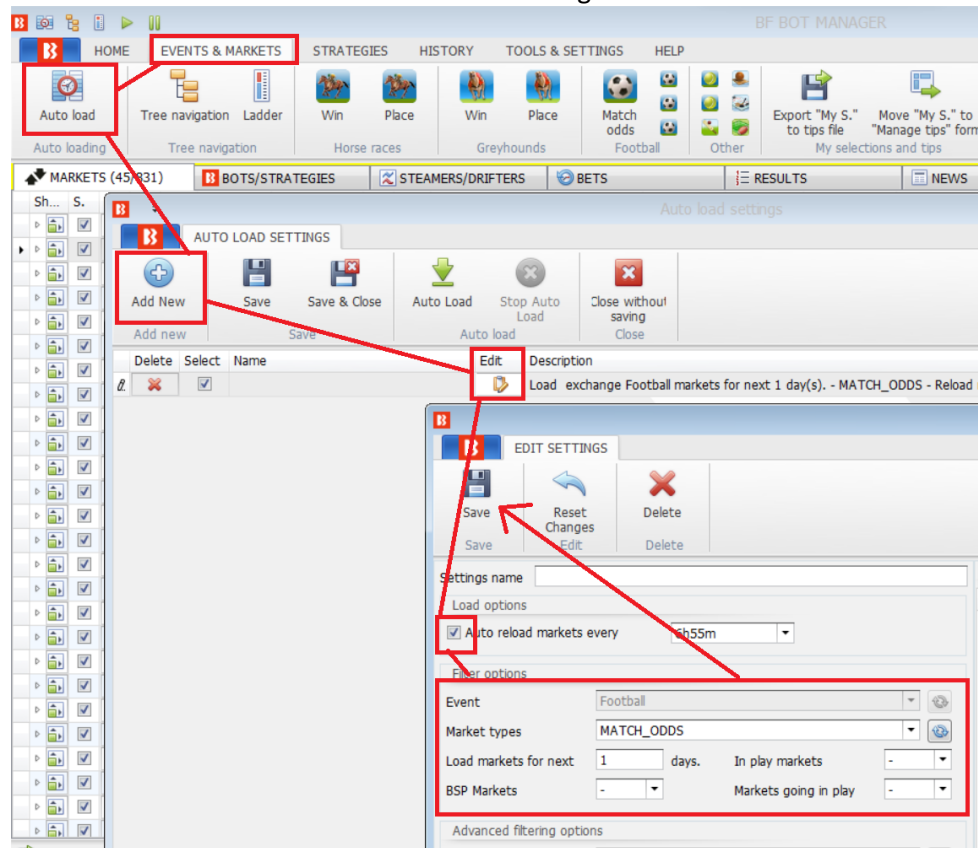

- 3 Paste this URL into your Bf Bot Manager “Manage tips” form area.
Strategies > Manage tips > Tips auto loading
Make sure you tick the “Active” checkbox on the left of the URL row to activate receiving tips from that URL.

Be sure to change the “Reload from URL” time to every 2 minutes.

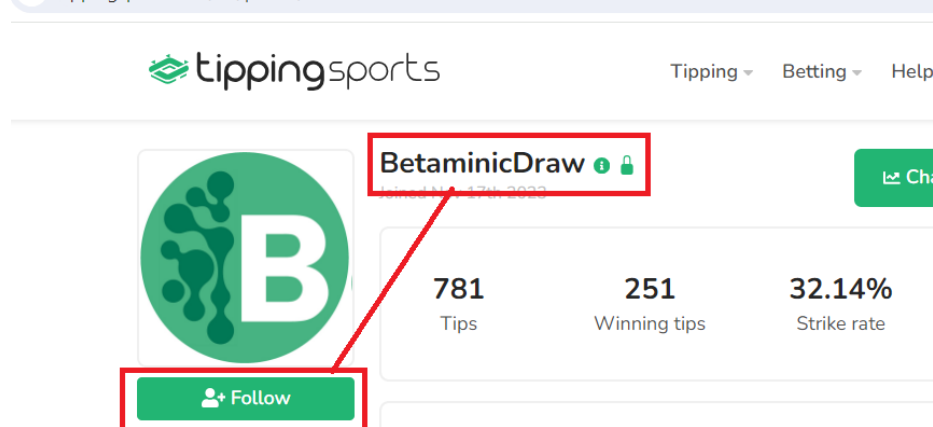

Also make sure “Match Odds” markets are being autoloading.

4 Click follow on the “[BetaminicDraw](#)” profile page.

tippingsports.com/en/profile/9154

5 Email tom.hudson@betaminic.com to tell him your TippingSports username so that he can approve your account to receive the tips.

Method 2: Get trigger tips from Betaminic's Betamin Builder

Pros:

You can include/exclude individual draw strategies yourself. This makes it much easier to see if one draw strategy from the system has lost its edge while the others are still working. Then you can remove just that failing one. You can see each strategy/bot set to view how each strategy's bots are performing individually. All tips are sent to one bot set.

You also have the choice of sending all trigger tips to one bot setoff 7 bots instead of the larger set.

Cons:

It is cheaper to follow through TippingSports rather than the Betamin Builder over the long term.

Getting tips through the Betamin Builder means you need to follow each individual strategy. At the moment, 10 strategies are used and one of them you need to duplicate and create yourself in your private strategies area.

TippingSports needs only one source, TippingSports.

10 draw strategies need 70 bots, which is quite a lot. (10 draw strategies x 7 bots = 70 bots) But in theory, even with the Betamin Builder version, you could send all the picks to one bot set of 7 bots if you preferred.

System Requirements:

[Betfair account](#) (Free)

[Betaminic Account](#) (Free),

[Bf Bot Manager software subscription](#) (£10 per month)

[Betamin Bulder Pick Pack](#) (Starts from €29 for 25 pick Starter pick pack, and the full set of trigger strategies averages at €285 per month with the Premier 2,000 pick pack.)

Optional:

[VPS subscription](#) (£20 per month)

[InPlayTrading data feed subscription](#) (£20 per month)

How to Follow

1. Get a www.Betfair.com account.
2. Get a [Betaminic](#) account. Buy a [Betamin Bulder Pick Pack](#). Email support@betaminic.com and ask "Please activate my BFBM URL for automated betting"
3. Get the [Bf Bot Manager automated betting software](#). (Free 7-day trial, £10 per month subscription)
4. Connect your Betamin Builder to your Bf Bot Manager software by pasting you Betaminic BFBM URL into the BFBM "Betaminic form".
5. Email me at bettingssystemsguide@gmail.com to ask for the "Betaminic Draw bot sets for the Betamin Builder". Tell me if you want the big set (70 bots) or the small set (7 bots).
6. Import the bot sets to your BFBM. Edit the stake settings in my bots to match your chosen starting bank. Setup Match Odds and Correct Score markets autoloading. Then, start the bots!
7. In the Betamin Builder, find and "follow" each of the draw strategies you want to use. You can click on these links below to go to them directly.

How does the bot set work?

Bot A1 receives a pick from Betaminic and places a draw bet at the opposite price. This means it will have many bets unmatched and lapsed, but it will have a higher ROI. (The opposite price means the odds currently show as the pink lay price, not the blue back price.)

Bot B2 places a draw bet on the same selection A1 did but at the current back price available. This is the core trend that we are following.

Bot B3 places an extra draw bet on the same selection A1 did but in-play at the current odds if a goal is scored.

Bot B4 places an extra draw bet on the same selection A1 did but in-play at the opposite odds if a goal is scored.

Bot B5 places an extra draw bet on the same selection A1 did but in-play at the opposite odds +4 ticks if a goal is scored.

Bot T7 places a tracker bet on the pre-match draw selection. This is reset periodically to track the short term win rate.

Long term win rate %

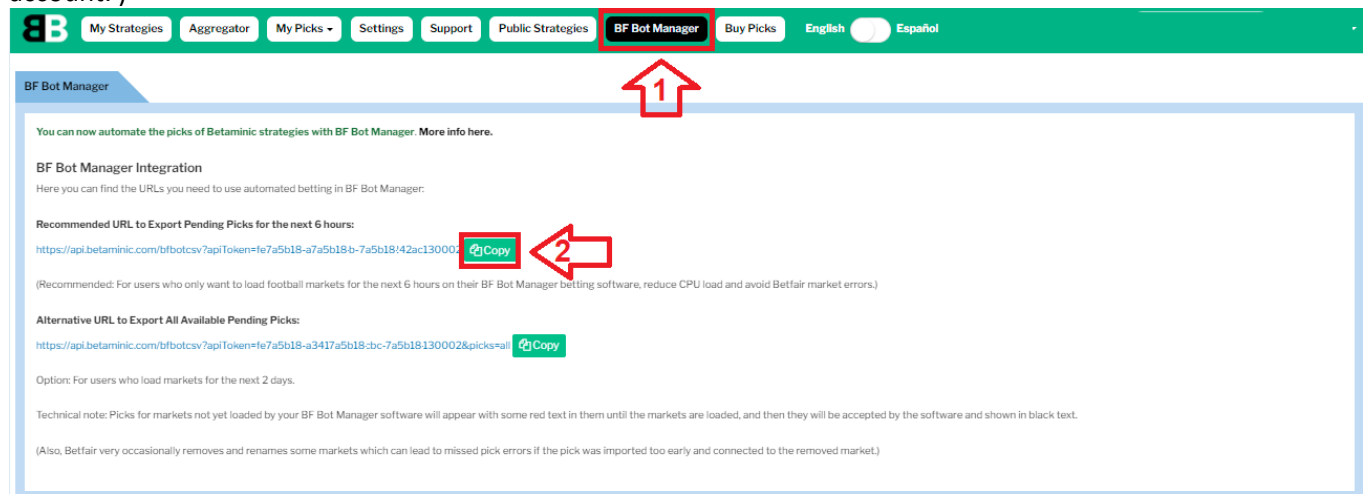

The long-term win rate of the core strategy is the key statistic I use to know if it is in a short-term losing run or not. I use a tracker bot to tell me the win rate of the current losing run. This gives me an idea of if the bot set results are based on a good run or a bad run. For example, if the long-term win rate is 33%, then if the bot set is making a loss but the win rate is 15%, then I know it is just a statistically unlucky run without draws and I don't panic, and I know that win rate will eventually come back up to 33%. Based on this, when the short-term win rate is under 20%, I sometimes increase stakes knowing that the draw bets are due to bring the win rate back up to 33%. **My stop loss** on this system is if the bots are making a loss and the win rate is at 33%. This would mean that the value has gone from this selection method.

Important: Please note that Betaminic is only responsible for generating picks in your Betamin Builder account. They are not responsible for making the Bf Bot Manager software or my bots work, so make sure that your BFBM bots are setup **before** your click to follow the Betaminic strategies since they will not refund picks generated in your Betaminic account but not bet on in the Bf Bot Manager since that is not part of their service.

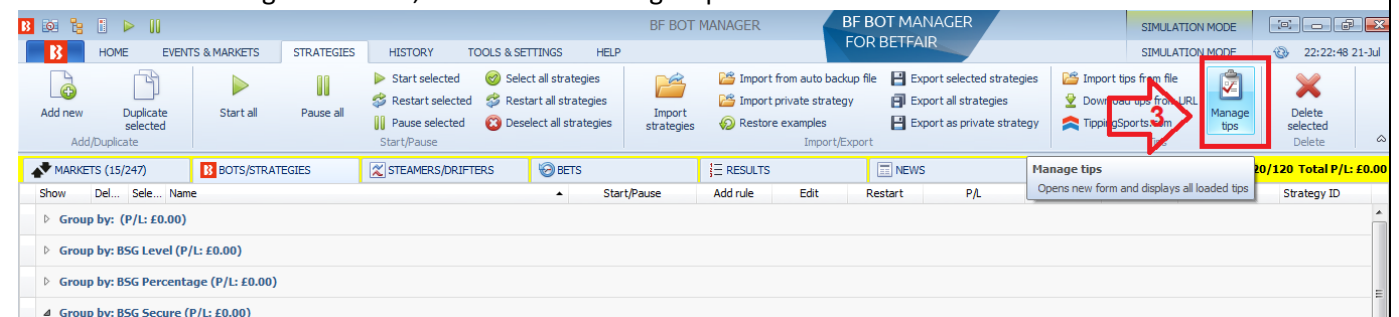

See detailed instructions below:

STEP 1: How to connect your Betaminic account to your Bf Bot Manager software

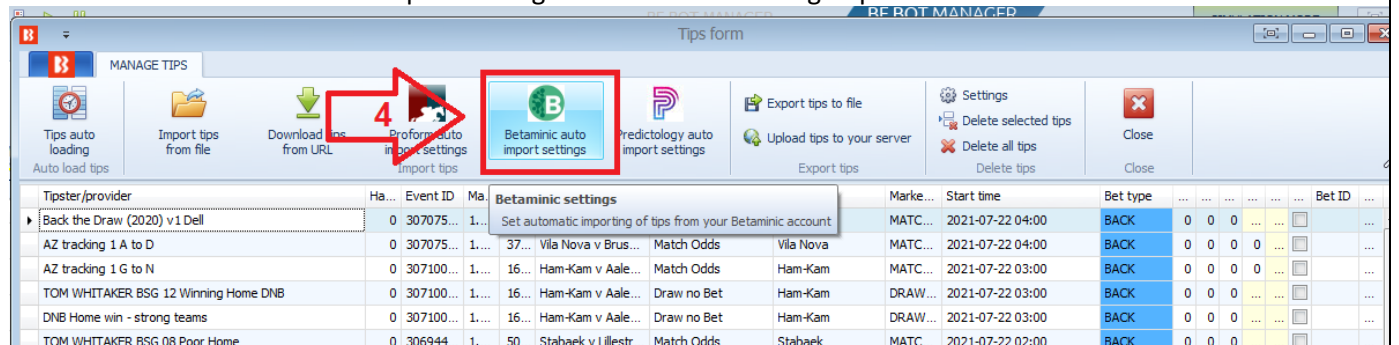

1. First, login to your Betaminic Builder on the Betaminic website. Go to the "Bf Bot Manager" tab in the Betaminic Builder.
2. Copy the first URL on that page by left-clicking on the green "copy" button. This is the "Recommended URL to Export Pending Picks for the next 6 hours".
(If your Bf Bot Manager URL is not there, email support@Betaminic.com to ask them to enable it on your account.)

3. In the Bf Bot Manager software, click on the "Manage Tips" button.

4. Click on the "Betaminic auto import settings" button in the Manage tips form.

5. Tick the checkbox to enable "Automatically import tips from your Betaminic account"
6. Right click and paste your Betaminic URL into this field.
7. Click "Save" to keep these settings and exit this form. Your Betaminic account and Bf Bot Manager should now be linked.
8. To test, exit the BFBM software and restart it. If any Betaminic picks are available for matches kicking off in the next 6 hours, they should display here. Note that it will only download tips if there are picks for matches that will kick off within the next 6 hours, but picks appear in the Betaminic Builder up to 48 hours before kick-off.

Troubleshooting

- If no picks appear in your "Manage Tips" form, check your Betaminic Pending Picks page to see if you have any picks for games due to kick-off in the enxt 6 hours. Only those tips will be imported. (This is for technical reasons connected to how Betfair manages it markets.)
- If you want to force a test, you can copy the second "Alternative URL to Export All Available Pending Picks" URL from your Betaminic "Bf Bot Manager" page and enter that in the "Download tips from URL" form in the Bf Bot Manager "Tips form".

STEP 2: How to import and start my bot sets

1. In the Bf Bot Manager STRATEGIES tab, click on the "Import strategies" button.

BF BOT MANAGER
FOR BETFAIR

BOT TROUBLESHOOTING

If the bot is not placing bets:

1. Check if tips are being received in your Manage Tips form.

If there are tips, then the problem is with the BFBM setup. Check your bots, check you market autoloading, check your tip import settings.

If there are no tips, then the problem is that your TippingSports account or Betamin Builder account is not properly connected to the BFBM software.

Betaminic Draw Strategies manual betting on OrbitX Exchange or Smarkets Exchange.

If you do not have access to Betfair, then you can use OrbitX or Smarkets Exchange if they are available to you.

Since Betamin Builder picks get emailed 36-48 hours before kick-off. There is plenty of time to place pre-match bets. If you are able to place bets in-play, then you can also try the in-play bets, too.

[Smarkets](#) seems to be available in a few more countries than Betfair is.

Restricted countries as of 2023-11-6: Australia, France, Hong Kong, Switzerland, China, South Africa, Denmark, Czech Republic, Belgium, Turkey, the United States, Italy, Portugal, Russia, Belarus, Ukraine, Kazakhstan, Norway and the Netherlands.

Please check with their [Terms and Conditions](#) if your country is allowed.

It is possible to create an account directly with and deposit to Smarkets.

The image shows two side-by-side screenshots of betting exchange interfaces. The left screenshot is from Smarkets, displaying 'Soccer odds' for various leagues like the Premier League and Champions League. It shows match listings with odds for home, draw, and away outcomes. The right screenshot is from OrbitX, showing a 'Winner' bet slip for a match between Bayern München and another team, with a return of £40.00. It displays the bet amount, odds, and a 'Place bet' button.

If you cannot access Smarkets, then OrbitX is another alternative.

OrbitX is a white label version of Betfair. (Same markets, same liquidity, just a different name.)

The image shows a screenshot of the OrbitX betting interface. It features a top navigation bar with 'Home', 'In-Play', 'Cash Out', and 'Soccer'. Below this is a search bar and a list of 'Favourites' and 'Top Competitions'. The main area displays 'Soccer' odds for various leagues, including the Premier League and Champions League. It shows match listings with odds for home, draw, and away outcomes. The right sidebar shows a 'Betslip' with a list of 'Popular links' and a 'Balance' of 0.00.

But the big difference with OrbitX is that you cannot sign up for or deposit directly into OrbitX. You must go through a betting agent site. You first deposit into your betting agent account page and then transfer from there into your OrbitX account. There are 2 major betting agents, [BetInAsia](#) and [AsianConnect](#). Between them there are only 4 restricted countries: Aruba, the Philippines, Singapore, the USA and its territories.

I made a comparison table below to make it easier to understand the differences between them.

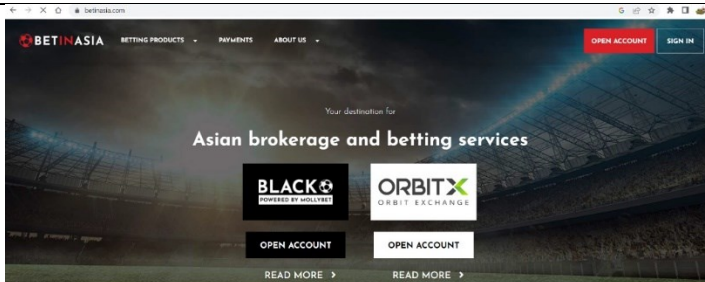

List of restricted Countries: Residents of those countries cannot open an account with that betting agent.

Licensed and regulated in Curacao, Netherland Antillies.

asianconnect

Licensed and regulated in Curacao, Netherland Antillies.

Only 4 countries restricted by both

Aruba
Philippines

There is no publicly available automated betting software for these exchanges, so you would need to place bets manually.

For manual betting on these draw strategies, you simply place the same 6 bets the BFBM bots would. But it requires you to be at your PC when a game is on if you want to be able to place the B3, B4, B5 in-play bets. If you can't do that, then just the A1, B2 and B6 bets are fine. They will still make a profit. But I recommend trying to place the B3 in-play bets when possible.

Stake: I recommend using 1 point level stakes with a 200-point bank.

Bet 1 Pre-match draw bet at the opposite price. I usually place bets 30 minutes before kick-off. This means it will have many bets unmatched and lapsed, but it will have a higher ROI. (The opposite price means the odds currently show as the pink lay price, not the blue back price.)

Bet 2 Pre-match draw bet on the same selection as Bet 1 but at the current back price available. This is the core trend that we are following. I usually place bets 5 minutes before kick-off for this one.

Bet 3 In-Play draw bet on the same selection as Bet1 at the current odds if a goal is scored. E.g. 1-0 or 0-1. Bets are placed for goals scored up until the 85th minute.

Bet 4 In-Play draw bet on the same selection as Bet1 at the opposite odds if a goal is scored. E.g. 1-0 or 0-1. Bets are placed for goals scored up until the 85th minute.

Bet 5 In-Play draw bet on the same selection as Bet1 at the opposite odds plus 4 ticks if a goal is scored. E.g. 1-0 or 0-1. Bets are placed for goals scored up until the 85th minute.
